

# UI-UX & WEBDEVELOPER

## jaydeep Gadhiya

### PROFILE SUMMARY

I am an aspiring professional currently pursuing an MCA from Utranchal University. I hold a B.Com degree, with a solid academic background, having achieved a 70.52% score. I have a foundational understanding of basic computer applications, including C programming, HTML, and CSS. In addition, I am familiar with Tally and have completed a basic computer course (CCC). I am passionate about photography, photo editing, and video editing and have a keen interest in reading spiritual books. I seek to contribute to a challenging and growth-oriented environment.

### Graphic Designing and Web Development Course

Currently pursuing a comprehensive course in graphic designing and web development at Framebox, where I am acquiring skills in visual communication, design principles, and modern web technologies. The course covers topics such as UI/UX design, responsive web design, and the use of industry-standard software, equipping me with the tools needed to create visually engaging digital experiences.
